

5 May 1962

**MEMORANDUM FOR: Deputy Director for Support**

1. Yesterday at the Eglin air power demonstration, in which we participated with a static display, the Director and the President were most impressed with the caliber of our display, the caliber of our personnel, and the entire Agency participation. The Director directed that a similar, or perhaps enlarged, static display be established in Washington on a permanent basis, here at Langley.

2. Please get together with the appropriate offices in DD/P, DPD, TSD, and whoever else is indicated, and determine space requirements, help them play layouts, security arrangements, access authority, etc., etc.

3. I would like expeditious action, to include being kept informed periodically.

Marshall S. Carter  
Lieutenant General, USA  
Deputy Director

MSC:blp
